

This is a detailed topographical map of the Deoghar region in Bihar, India. The map shows the Garo, Khasi, and Jaintia hills, which are characterized by numerous contour lines indicating elevation. Key features include:

- Geographical Features:** The Patkoi and Jaintia rivers are prominent, flowing through the region. The map also shows various types of vegetation, including dense jungle, open scrub, and scattered trees.
- Place Names:** Numerous villages and towns are labeled, including Deoghar, Patkoi, Jaintia, and others. The map also shows the locations of various government offices, such as the District Office and the Forest Office.
- Infrastructure:** The map includes a network of roads and railways, as well as a suspension bridge. It also shows the locations of various educational institutions, including schools and colleges.
- Topography:** The map uses contour lines to show the elevation of the hills. Key peaks are labeled with their heights, such as 2328, 2495, and 2582.
- Forest Reserves:** The map indicates the locations of various forest reserves, including the Deoghar Forest Reserve and the Patkoi Forest Reserve.

The map is a valuable resource for understanding the geography and topography of the Deoghar region. It provides a detailed view of the hills, rivers, and infrastructure, and is useful for a variety of purposes, including research, planning, and education.
