HEIGHTS & CONTOURS IN METRES
CONTOUR INTERVAL 20 METRES

Water features are shown in blue where they generally contain water.
Cultivated areas are coloured yellow.
The exterior boundaries of areas of Reserved or Protected Forests are shown by green ribands.

Contours are approximate.
A relative height, *Br*, represents the approximate height, in metres, between the top and bottom of a steep slope.
Wooded areas are coloured green. Scattered trees and other vegetation are in green, but prominent surveyed trees are in black.

The triangulated heights and contours in this sheet have not been adjusted to the heights of the spirit-levelled bench-marks and may not be strictly in accordance with them.
The kilometre stone numbers along railways, roads and canals are shown in slant type, e.g., *5* whereas milestone numbers are shown in upright type, e.g., 5.
A relative height, e.g., *3r*, marked along a canal, indicates the height of the top of the canal embankment above the adjacent country.
The administrative boundaries in this sheet have been surveyed as pointed out by the local officials on the ground, but have not been verified by the District authorities.
This sheet has been compiled from 1:25,000 survey.
All unmetalled roads are generally motorable in dry season.
Tanks, shown dry, in this area usually contain water from July to December.
