

### COST BENEFIT ANALYSES

1. The area covering the portion of "Formation of road from Baggidipalli to Yakaropalli village" in Pulapathur RF and hence it will not results in loss of top soil.
2. There is no vegetation in this area proposed for "Formation of road from Baggidipalli to Yakaropalli village" in Pulapathur RF on hillock topography and contains only scatted thorny bushes.

#### Benefit :

1. The project activity will create employment to the remote rural population. The area falls in the Rayalaseema and an undeveloped area and emergency medical treatment old age pregnant women children education transportation of Agricultural produce etc.
2. After completion of this project will create easy transportation facilities to the villagers through Lorries, Tractors etc., Motor vehicles for the productivities of the villages and to obtain other materials by other areas as required by the villagers.

#### Conclusion :

In view of the above the environment costs are minimum vis-à-vis the economic benefits the project derives to the local population to the state and country. The benefits far out weight the costs. It will gives an opportunity for the villagers to have connectivity since after Independence, Since there is no alternative except through this forest portion to have the benefits of ~~even and~~ emergency medical treatment old age pregnant women children education transportation of Agricultural produce etc.

**COST BENEFIT ANALYSIS**

\*\*\*

**CATEGORY OF PROPOSALS FOR WHICH COST BENEFIT ANALYSIS APPLICABLE**

Sl.No	Nature of proposals	Applicable / Not applicable	Remarks
1	2	3	4
1	All category of proposals involving Forest land less than 2 Ha. In hills	Applicable.	-
2	Proposals for defense installation purposes and oil prospecting (Prospecting only)	Not Applicable	-
3	Habitation, Establishment of industrial units, tourist lodges / complex and other building constructions	Not Applicable	-
4	All other proposals involving forest land more than 5 Ha. In plains and more than 2 Ha. In hills including roads, transmission lines, minor and major irrigation projects, hydel projects, mining activity, railway lines located specific installations like micro wave stations, auto repeater centers, TV towers etc.	Not Applicable	-

**Annexure VI-(b)**

**PARAMETERS FOR EVALUATION OF LOSS OF FORESTS**

Sl. No	Nature of proposals	Roads, TR lines and Railway lines	Minor Irrigation Projects & quarrying of stones / metals	Medium and Major Irrigation Hydro electric large mining and others.
1	2	3	4	5
1	Loss of value of timber fuel wood and minor forest produce, on annual basis including loss of man hours per annum of people who derived livelihood and wages from the harvest of these commodities.	The proposed area is of Rocky type / with scattered thorny bushes which yield no timber or fuel and no loss of forest wealth and no loss of human hours.	Not applicable	Not applicable
2	Loss of animal husbandry productivity including loss of fodder	There is no loss of animal husbandry and fodder in this area.	Not applicable	Not applicable
3	Cost of Human resettlement	Does not arise since there are no cases of rehabilitation of human under this project	Not applicable	Not applicable
4	Loss of public facilities and administrative infrastructures (Roads, Buildings, Schools, Dispensaries, Electric Lines Railways etc.,) on forest land if these facilities were diverted due to the project	There are no administrative structures like dispensaries School buildings, Railway & Electrical lines in this area.	Not applicable	Not applicable
5	Environment losses, oil erosion effect of hydrological cycles, Wildlife habit at micro-climate upsetting of ecological balance.	Nil	Not applicable	Not applicable
6	Suffering to oustees	There are no oustees in the proposed area to be diverted	Not applicable	Not applicable

**Annexure VI-(c)**

**PARAMETERS FOR EVALUATION OF BENEFIT NOT WITH STANDING LOSS OF FORESTS**

Sl. No	Nature of proposals	Roads, TR lines and Railway lines	Minor Projects	Irrigation Hydal Projects & Others
1	Increase in productivity attributable to the specified project	This project work is only to provide transportation facilities to the villagers by lorries tractors etc., motor vehicles. Emergency medical treatment old age pregnant women children education transportation of Agricultural produce etc.	Not Applicable	Not Applicable
2	Benefits to economy	This project work is only to provide transportation facilities to the villagers by lorries tractors etc., motor vehicles. . Emergency medical treatment old age pregnant women children education transportation of Agricultural produce etc.	Not Applicable	Not Applicable
3	Employment potentiality	165 Rural people will be employed during the work "Formation of road from Baggidipalli to Yakaropalli village" in Pulapathur RF	Not Applicable	Not Applicable
4	Number of population benefits	Villagers of Yakaropalli	Not Applicable	Not Applicable
5	Cost of acquisition of facility of Non-Forest and wherever feasible	Not Applicable	Not Applicable	Not Applicable
6	Loss of (a). Agriculture and (b). Animal Husbandry production due to diversion of forest land	There will be no loss of Agriculture or animal husbandry due to this project in the proposed area to be diverted	Not Applicable	Not Applicable
7	Cost of rehabilitation of the displaced persons as different from Compensatory amount given for displacement	Does no arise as there are no displaced persons are families due to this project in the proposed area to be diverted	Not Applicable	Not Applicable
8	Cost of supply of free fuel wood to workers residing in or near forest area under the period of construction	- Nil -	Not Applicable	Not Applicable
