## JUSTIFICATION FOR LOCATING THE PROJECT IN FOREST LAND

The quarry is meant to provide raw materials (Sand/Shingles/Boulders etc) for construction of 2 - lanning with hard shoulders of Demwe – Brahmakund road from Km 0.00 to Km 18.464 on Demwe – Hawaii Road (New NH – 13) on EPC mode in the state of Arunachal Pradesh by NHIDCL. Final approval for construction of the road has been accorded vide no. FOR. 3 – 220/Cons/2020/3795 – 3801 Dated 22.09.2.21.

The entire belt is under notified forests area and non – forest area is more than 20 Kms far from the starting point of the road. The rivers/streams in those non – forest areas has not enough resources to cater the need of RBM required for the construction of the road. The collection and transportation of the raw materials will not be cost worthy and transportation will not be easier being hilly region.

The present quarry site is selected on the advice of the forest department so that through quarrying the middle of the bed of the stream gets deeper and flow of water is regulated during rainy season in order to protect the plantations from flood created nearby.

Hence proposed.

Place : Demwe

Date : 29/10/2021
