## Justification for locating the Project in the Forest Area

For a private railway siding a track of 1050mt. is the bare minimum. In this context, the user agency has applied for land over 30 acres for the railway siding at village Nayagarh.

Due to Non-availability of compact patch of Ac.30.00 of Non-forest plain land, parallel & adjacent to the railway track, steps have been taken to identify an area with involvement of minimum forest area & accordingly the present site has been selected. This site is located in the village Nayagarh and suitable for Railway siding. The location of site is having **Longitude 85°.20' E** and **Latitude 21°.58' N**, as mentioned in the topo-sheet No. 73 G/5 (Annexure-PLATE-II). The total area of the Railway siding is **107079 Sq.Mts.** including Forest, Non-Forest and Private land'; The project will carry out construction of office building in **2070Sq.Mtrs** of non forest land. Again to maintain the railway permissible limit of curvature of 9 degrees, the proposed railway track linking area with area with embankment is going to pass over 12.30 Acres of **DLC forest land** vide plot No.1742 and 1747 in mouza Nayagarh in Keonjhar district. The forest land attracts section 2 of Forest (Conservation) Act 1980 and hence DRP proposal is being prepared for the area for conversion of Ac. 12.30 or 4.9776 Hect.of DLC forest land for non-forest use in accordance with the provision of Forest (conservation) Act 1980 & Forest (conservation) Rules 2003.
