Proposed Forest Land
for CA Plantation

REFERENCES

NOTES:-
Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative height, etc., represents the approximate height, in metres, between the top and bottom of the slope.
Wells and tube-wells are numerous throughout the sheet; only the important ones have been shown.
As cart-tracks and unmetalled roads in this sheet are generally motorable in dry season, permission to use these along cart-tracks is required from irrigation authorities.
Towns, shown in red, in this area usually contain water from July to December.
The kilometre scale numbers along the roads, railways and canals are shown in italic type, e.g., 97 whereas milestone numbers are shown in upright type, e.g., 15.

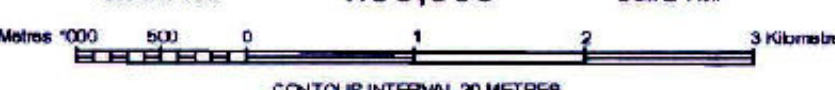

COMPILATION INDEX

A. Surveyed during 1974-75. Updated for major details during 2009/10.

Projection - UTM Datum - WGS 84

Magnetic Variation from True North about 1° East in 2005.
(Increasing by about 1° annually)

1:50,000
