NOTES

Heights are in metres and above Indian mean sea level.
Contours are approximate.
A natural height, H , represents the approximate height, in metres, between the top and bottom of a slope.
All contour lines and unimproved roads along canal are indicated throughout the year whereas other roads are generally indicated in dry season. Permission to use these along canal is required from the irrigation authorities.
The following show boundaries along roads and canal are shown in solid lines, e.g. 'the' boundaries are shown in light type, e.g. 'the'.
Wells and boreholes are numerous throughout the sheet, only the important ones have been shown.
Tanks, shown dry, in this area usually contain water from July to December.
A natural height, e.g. H , marked along a canal indicates the height of the top of the canal embankment above the adjacent country.
