NOTES

Height in metres and above Indian mean sea level. Contours are approximate. Water features are shown in blue where they generally contain water. A relative height, e.g. represents the approximate height, in metres, between the top and bottom of a steep slope. The interglacial heights and contours in this sheet have not been adjusted to the heights of spot levelled bench-marks and may not be strictly in accordance with them. Earth or ground slide is shown with a wavy line. The exterior boundaries of areas of Reserved or Protected Forests are shown by green ribbons.

COMPILED INDEX

A. Compiled from 1:25,000 scale survey, carried out during 1980-85. Updated for major details during 2000.

Projection - UTM Datum - WGS 84
Magnetic Variation from True North about 1° East in 2005. (Increasing by about 1° annually).

Scale 1:50,000
Contours Interval 20 METRES
