**TO WHOM IT MAY CONCERN**

**Justification of Project**

**Stabilization and Energization of existing S/C 220 kV Gladni Udhampur Transmission Line by way of insertion of Towers, Realignment on D/C Towers from location No. 158 onwards and clearing all other bottlenecks.**

220 KV Gladni Udhampur Transmission line was started way back in early 80s to lit up the twin districts i.e. Jammu as well as Udhampur. However, owing to various court cases and mushrooming of concrete colonies under the corridor, energization of said line couldn't happen till date. Keeping into account the importance of charging of this vital link between Udhampur/Jammu a system study was conducted where under all possible routes were explored. After threadbare discussions and deliberations it was decided the only available route finalized is through forest area.

  
**Executive Engineer  
Trans. Line Maintt. Div-VIII,  
JKPTCL, Jammu**
