भारतीय सर्वेक्षण विभाग SURVEY OF INDIA

1st Edition 2011. Price : Rs. 70/-

CONVENTIONAL SYMBOLS

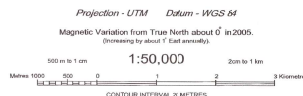

NOTES

Heights are in metres and above Indian mean sea level. Contours are approximate. A relative height, e.g., 100, represents the approximate height, in metres, between the top and bottom of a steep slope. Tanks, shown dry in this area, usually contain water from July to December. The alternate crest numbers shown on road and canal are shown in short type, e.g., 12/100. All established roads and canals are shown in solid lines. The numbers in the circles are generally placed in the direction of flow of water. Parental streams, in this sheet, are generally fordable from October to June at the places indicated on the map. Numerous wells are shown throughout the cultivated portions of this sheet; only the important ones have been shown.

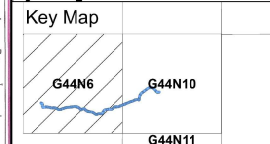

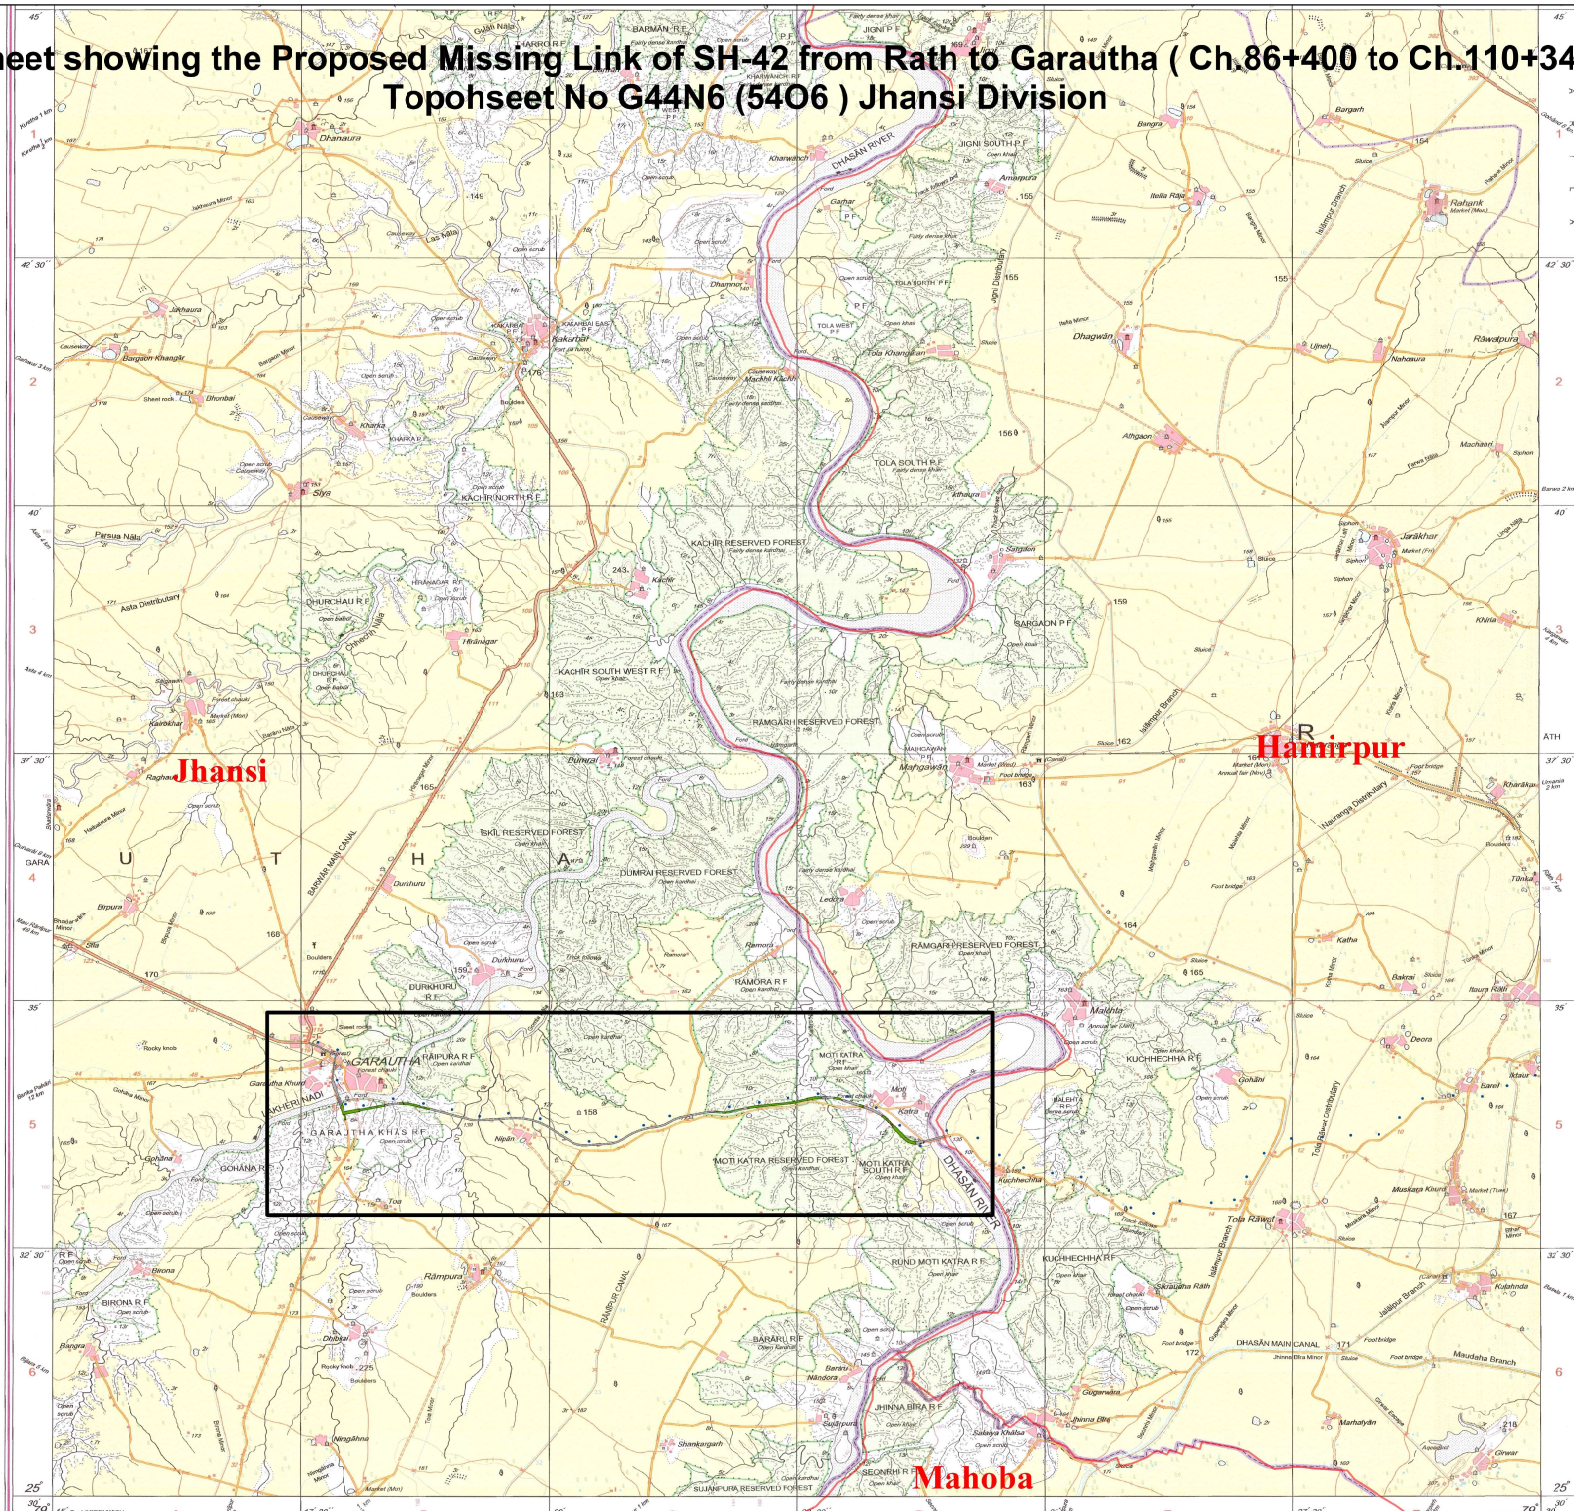

COMPILED INDEX

A. Surveyed during 1972-74. Updated for major details during 2010-11 and administrative boundaries updated during 2018-03.
