To,

The Competent Authority
NCT of Delhi,
Puratatva Bhawan, 1st Floor
Block-D, INA, New Delhi.

Sub: Permission for construction of few transmission line towers in vicinity of Tughlakabad Fort and Adilabad Fort to provide inlet and outlet of power to new 400 Kv Tughlakabad S/s presently under construction, coming up to provide additional power to National Capital Delhi.

Dear Sir,

This has reference of our letter ref. no. N1/Mbagh/TKD/2017 dtd. 10.04.2017 vide which our proposal submitted in ASI for grant of working permission for construction of towers of LILO of 400 KV D/C transmission line Bamnauli-Samayapur at Tughlakabad, 220 kV transmission lines under DTL consultancy work. All together 09 towers of these transmission line shall be installed near monuments.

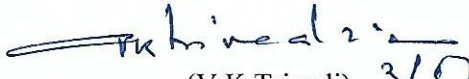

Accordingly, the joint visit carried out by officials of ASI & POWERGRID on dated: 21.04. 2017. During the visit it has been observed by ASI officials, that the distance of tower location of some of towers is found slightly close to the Adilabad Fort. Therefore, it had been suggested by the ASI to review the location of the tower and make it clear that each tower must have the distance minimum 100-meter from the monuments. Other towers were found in order and their tower location are satisfying ASI guidelines.

In this regard, tower locations were reviewed and all were kept more than 100 meter away from the Adilabad Fort. (Copy of revised layout is attached as **Annexure-A**).

Hence, you are requested to accord the approval for establishment of these 09 towers for construction of LILO of 400 KV D/C transmission line Bamnauli-Samayapur at Tughlakabad, 220 KV M/C transmission line Tughlakabad-Okhla & Tuglakabad-BTPS and 220 kV Tughlakabad-Mehurauli TL.

Thanking You,

Your Sincerely

(V.K.Trivedi)
(Asstt.G.M.-DTL-Projects-TKD)
