

**INSPECTION NOTE ON THE PROPOSED CONSTRUCTION OF TRANSMISSION  
33 KV LINE THROUGH RONGRENGGRE RESERVE FOREST**

The field inspection was carried out on the **23<sup>rd</sup> June, 2015** alongwith the Divisional Forest Officer, Garo Hills (T) Division.

The proposed power transmission line drawn from Williamnagar to Songsak will pass through the Rongrenggre Reserve Forest. The Forest composed of Sal & Makri Sal as the dominant species and teak plantation in some compartments. Diversions at certain areas has been proposed to minimize the felling of trees. The total stretch is 3.374 Kms. Few species of wildlife are reported inside the Reserve Forest.

Since the powerline is meant to provide electricity to all the villages under Songsak C&RD Block for the overall improvement of the Villagers, the proposed project for diversion of forest land measuring 2.4345ha. is recommended.
