

Site Inspection Note

The proposed site for diversion of Forest land for open cast mining by C.C.L. was inspected on 05.10.2016. The representatives of C.C.L. and Sri P. Agrawal, A.C.F. of Ranchi Division and Shri Vishwanath. Prasad, Range officer of forest were present at the time of inspection. The undersigned visited village/PF Karkatta and found that average density of vegetations seems to be 0.3. Pillars were found on Forest land applied for diversion. There is no nearby area of protected archaeological/heritage site or defense establishment or important monument. There is no elephant corridor through the proposed area And no unique species of flora and fauna is found in the area.
