

**Site inspection report of the Chief Conservator of Forests,  
Southern Circle, Kollam**

I had inspected the proposed site for the construction of Police Station, Ponmudi with Divisional Forest Officer, Thiruvananthapuram and local staff on 21.11.2016. The forest land proposed for diversion is 0.02 ha and forms part of Palode reserve. The trees required to be felled are a mix of local and introduced species of lesser commercial value. No noticeable impact on the tract / terrain around on account of this diversion is foreseen.

The proposal for diversion is recommended, subject to the conditions laid down by the Govt. of India.

  
Chief Conservator of Forests.  
Southern Circle, Kollam
