

PART III

(To be filled by the concerned Conservator of Forests)

14. Whether site, where the forest land involved is located has been inspected by the Conservator of Forests.

Yes

If yes, the date of inspection and observations made in form of Inspection Note to be enclosed.

Enclosed(Annexure-I)

15. Whether the concerned Conservator of Forests agree with the information given in part B and the recommendations of Deputy Conservator of Forests.

Yes

16. Specific recommendation of concerned Conservator of Forests for acceptance or otherwise of the proposal with detailed reasons.

Enhanced road connectivity will definitely benefit local communities& will help in boosting their economic growth and poverty reduction. It will help in the overall socio-economic development in the sub-region by providing easy accessibility to various services like markets, health facilities, school and work places etc. Hence it is Recommended.

Inspection Report of the Conservator of Forests

Northern Circle.

In connection with the Construction of Imphal-Kangchup-Tamenglong Road

Inspected the proposed area of 10.56ha out of 91.43ha falling under Northern Forest Division, Kangpokpi for the construction of Imphal-Kangchup-Tamenglong Road on the 11th of April 2016. The Manipur state PWD is the user agency of the work.

The proposed area comprises of 6.52ha of Tairenpokpi-Tamenglong protected forests and 4.04ha of Kangchup Reserved Forests. The Forest Type of this area is Tropical Moist Deciduous Forests. On the basis of forest density, the forest area comprises of 0.51 ha of moderately dense, 8.82 ha of degraded and 1.23 ha of open forests.

Major plant species growing in this area are *Alnus nepalensis*, *Albizia stipulata*, *Quercus*, *Bombax ceiba*, *Schima wallichii* and *Toona ciliata*.

It has been reported that wild animals like flying squirrels, porcupine, wild boar and deer are found in this area.

The proposed area is not a part of any National Park or Sanctuary, Biosphere Reserve, Tiger Reserve, Elephant Corridor or any Protected, Archeological or Heritage site or defence establishment. No important monument is located inside this area. The proposed area is at an aerial distance of 28 Km away from the proposed Buning Wildlife Sanctuary.

Presently there is no violation of the FCA 1980 by the user agency in respect of the proposed work. The area required by the User Agency is unavoidable and the barest minimum.
