

SITE INSPECTION NOTE

The site of proposed water supply scheme is inspected by the Deputy conservator forests (wildlife) Aurangabad on dated 06/05/2016. The proposed land is submergence land of Jaikwadi bird sanctuary. The proposed works includes only excavation of trench of size 10 mt. x 3.00mt. x 700.mt. This proposed site is apparoximetely 1.5 km. inside from the boundry of the sanctuary. The total area affected will be 0.7 ha. This area is devoid of vegetation and fully submerged with water. The said area is under control of wildlife protection Act 1972 so, may cause disturbance to the habitat. But this project is for supply of drinking water to the adjoining villages of sanctuary so permission may be granted by considering the severe drought condition in the marathwada region.
