

Site inspection Report

Inspected the site for Service connection of electricity to Anganvadi and residence of Smt. M. Kaia Prayag, Sathyamangalam, Perumthoil on 15.03.2017. The proposal is for diversion of 0.0021 ha of land for the electrification in Perumthoil area of Pathanapuram Range. No felling of trees is required for this diversion.

It is seen that the proposed work is for laying LT UG Cable line in Piravanthoor Grama Panchayath under total electrification scheme by Kerala Government. This diversion is essential for the electrification of the area. The area does not have any rare / endangered / threatened species and not coming under protected area. The requirement of forest land as proposed by the user agency is unavoidable and bare minimum. No felling of trees is required for the diversion. During my inspection no work in violation of FC Act or guidelines is seen carried out by user agency. The project is recommended for approval.

I. Sidhee, IFS
Divisional Forest Officer, Punalur
