

Site Inspection Report

This to certify that the road has been inspected by me on 15.05.2017. The area is containing Reserve forest and it is found that the area to be diverted for improvement of Vellanad -Chettachal Road is .32Ha. This road starts from Vellanad junction, passes through the Chooliyala Reserve for a length of 1.3 km and ends at Chettachal junction. No tree to be felled for widening the road at a length of 1300m ((1.3km) (32 Ha)) through forest area. Moreover by improvement of the said road it will not harm the existing vegetation and wildlife in the area. Hence permission may be granted subject to the realization of NPV.
