

SITE INSPECTION REPORT

The Site Inspection for the proposal for Diversion of Forest Land for the purpose of mining for Oil Exploration by Oil and Natural Gas Corporation Ltd., (ONGC) in Rengma RF under Golaghat Forest Division was carried out by the undersigned on 06.09.2017. During the inspection, it was found that the Forest Land required by the User Agency is 3.48 Ha. The proposed drilling location in Rengma RF is proposed in the existing old drill site-KHAI (Area- 3.01 Ha.) which was diverted vide Ministry of Environment & Forests letter No. 8-12-22/98/RO-NE-AS/697-700 Dtd., June 22, 1999 and under the possession of the User Agency (ONGC). The proposed mining for Oil Exploration is selected on the open Reserve Forest where the density of the Forest is nil and thereby requiring no felling of trees and disturbance to the Wildlife will be nil. The requirement of the Forest land is unavoidable and barest minimum for the Project. The area proposed for diversion does not form part of any Wildlife Sanctuary. The area has no importance from protected archaeological point of view and there is no heritage site/ defence establishment or any other important monument along the area proposed for Diversion.
