NOTES

Heights are in metres and above Indian mean sea level.
Contours are approximate.
The triangulation heights and contours in this sheet have not been adjusted to the heights of the International Benchmarks and may not be strictly in accordance with them.
Rivers and streams are generally fordable from November to June, at places shown in this sheet.
Wells are numerous throughout the sheet only the important ones have been shown.
Unmetalled roads in this sheet are generally passable in dry season.
A water height, e.g., represents the approximate height in metres, between the top and bottom of a steep slope.
The state boundary between Jharkhand (Jharkhand) and West Bengal State has been surveyed as per the order of the Government of India on the ground but has not been verified by the Government of Jharkhand.

COMPILED INDEX

Projection - UTM Datum - WGS 84
Magnetic Variation from True North about 1° West in 2005.
(Annual change negligible).

1:50,000

CONTOUR INTERVAL 10 METRES
