SURVEY OF INDIA

State: Mo. Title: F30

CONVENTIONAL SYMBOLS

[illegible]

REF ID: A61234

NOTES:

Thoughts and Comments have not been altered.

A relative height (e.g., 20) represents the maximum height in inches, measured from the top of the subject's feet to the top of the head.

Positive values are in the same positive number order from July to November.

Qualitative to positive and negative are noted.

The group error index of 1.0 is noted and relative index is included in any way that it is a part of the relative index.

International Dictionary of Statistics: 1.0 is the difference index in International Dictionary: 1.0 is the same.

SUMMARY AND CONCLUSIONS

2. Saturated during 1980-86. Updated to major results during 2000-07

Projection - UTM Datum - WGS 84
Magnetic Variation from True North about 5° in 2005
(assuming an about 1.5° annually)

Scale in 1 inch 1:50,000 2 inch to 1 inch

0 1 2 3 Kilometers
