NOTES

Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative height e.g., 3, represents the approximate height, in metres, between the top and bottom of a steep slope.
Tanks shown dry, in this area usually contain water from July to December.
Cultivation is periodic and dependent on rainfall.
The kilometre stone numbers along roads, railways and canals are shown in slant type, e.g., 3, whereas milestone numbers are shown in upright type, e.g., 3.
The triangulated heights and contours in this sheet have not been adjusted to the heights of the spirit-levelled bench-marks and may not be strictly in accordance with them.
Forest boundaries are not clearly demarcated but have been surveyed as pointed out by the local officials on the ground.

COMPILATION INDEX

A. Surveyed during 1979-80. Updated for major details during 2003-04.

Projection - UTM Datum - WGS 84

Magnetic Variation from True North about 2° West in 2005.
(Decreasing by about 1' annually)
