Power line, with pylons surveyed, with poles unsurveyed	...

REFERENCE
35 National Highway No. 26

NOTES :-
Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative height, e.g., 5, represents the approximate height, in metres, between the top and bottom of a steep slope.
Unmetalled roads in this sheet, are possible in dry season.
The kilometre stone numbers along the railway and roads are shown in standard type, e.g., '7' whereas milestone numbers are shown in upright type, e.g., '70'.
Cart tracks inside the reserved Forest and along canals are possible in dry season. Permission to use these is required from the Forest and Irrigation authorities, respectively.
Perennial rivers and streams in this sheet are generally fordable from October to June at the places indicated as such.
Wells are numerous throughout the sheet, only the important ones have been shown.
Tanks, shown dry in this area, usually contain water from July to December.
