

FULL JUSTIFICATION FOR LOCATING THE PROJECT IN FOREST AREA
(UN-AVOIDABLE OF THE FOREST AREA FOR THE PURPOSE)

The existing Konduru-Kadaluru R&B road passes on the edges of Mambattu tank bund for a length of Km 1.218 and there is no sufficient Right Of Way as there exists Mambattu Village on the other side. Also the existing Industrial Park is far away (0.80 Km) from the R&B road. Further there is no alternate approach road to connect Industrial Park Mambattu Phase-II.

The extent of IP Mambattu Phase-II is acres 283.18. If the industrial area is fully developed it may likely to generate 6000 employment and this would be very helpful to the surrounding villages covered under Tada Mandal.

In view of the above circumstances, the State Govt has instructed APIIC to propose a Four Lane Road connecting Phase-I to Phase-II through edges of the Mambattu Reserve Forest of Sullurpeta Beat of Venkatagiri Range of Nellore Forest Division of SPS Nellore District. This is the only possible approach road connecting from Mambattu Ph-I to Mambattu Phase-II.
