Speed names: administrative, locality or tribal... Hospital, Dispensary, Veterinary hospital... Aerodrome: Helipad, Tourist site... Power line: with pylons surveyed, with poles unsurveyed

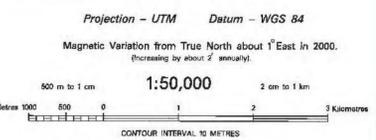

REFERENCE

NH 73 National Highway No. 73

Heights are in metres and above Indian mean sea level. Contours are approximate. A relative height e.g. 40 marked along a canal, indicates the height of the top of the canal embankment above the adjacent country. Tanks shown dry, in this area usually contain water from July to March. Unmetalled roads and cart-tracks in this sheet are generally motorable in dry season. Permission to use these along canals is required from the Irrigation authorities. The area adjoining the Yamuna River is liable to change owing to continual fluctuation in the course of the river. Canal distance stones are 1,000 feet apart and every fifth existing stone is shown. 3000 acre reclamation zones of Bikaner Dam Project Survey are shown as tertiary bench-mark...

COMPILATION INDEX

A. Surveyed during 1989-90. Updated for major details during 2005-06.
