NOTES :-

Hilltops are in western and about Indian lands and local
Canneries are appropriate.

Fishes shown in this area usually contain water from July to December.
Unsettled? Boats and tracks visible in this sheet are generally made by dry season.

A citizen's book, its importance in the approximate height, in meters, between the top of the
bottom of a steep slope.

The lowest stone boundaries along roads and railways are shown in slant type, e.g., S,
whereas intermediate boundaries are shown in straight type, e.g., S-1.

The stone boundary boundaries between the British and Chinese have been surveyed as pointed out by the
British on the ground but has not been verified by the Government concerned.

Reserved and Protected forest boundaries have been surveyed as pointed out by the local
officials on the ground but have not been verified by the Government concerned.

Some of the boundaries shown in this sheet are based on reports given by some individuals.
