NOTES

Heights are in metres and above Indian mean sea level.
 Coordinates are approximate.
 A relative height, h' , represents the top and bottom of a steep slope.
 The unimpounded height and contours in this study have not been adjusted to the heights of the spirit-manned levelling staffs and may not be strictly in accordance with these.
 Distances shown along each dike are shown in miles (upright type), in $\sqrt{2}$.
 Distances shown in this area usually coincide with those given by Dabadar.
