SURVEY OF INDIA

1st Edition 2007.

Price : Rs. 50 / -

CONVENTIONAL SYMBOLS

REFERENCE

NH 71 B National Highway No. 71 B

NOTES :-

Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative height, e.g., $3r$, represents the approximate height, in metres, between the top and bottom of a steep slope.
The triangulated heights and contours in this sheet, have not been adjusted to the heights of the spirit-levelled bench-marks and may not be strictly in accordance with them.
A relative height, e.g., $4r$, marked along a canal, indicates the height of the top of the canal embankment above the adjacent country.
Tanks shown dry, in this area usually contain water from July to January.
Tide-walls are numerous throughout the sheet, only the important ones have been shown.
Unmetalled roads and cart-tracks in this sheet are generally motorable in dry season. Permission to use those along canals is required from the Irrigation authorities.
Canal distance between canals is 1,000 feet apart and every existing fifth stone is shown.

COMPILATION INDEX

A. Surveyed during 1993–94. Updated for major details during 2006–07.

A

Projection – UTM Datum – WGS 84

Magnetic Variation from True North about $\frac{1}{2}^{\circ}$ East in 2005.
(Increasing by about $1'$ annually)
