

Full Title of the Project :- CONSTRUCTION OF 100 BEDED CIVIL HOSPITAL AT  
SANDHOL DISTT. MANDI (H.P)

File No: \_\_\_\_\_

Date of Proposal \_\_\_\_\_

### JUSTIFICATION FOR THE LOCATING THE PROJECT IN FOREST AREA

The proposed site for the CONSTRUCTION OF 100 BEDED CIVIL HOSPITAL AT SANDHOL DISTT. MANDI (H.P), has been carefully finalized after considering the alternative sites. Three sites have been explored and the third one has been finalized to minimize the forest area.

3<sup>rd</sup> site was rejected due to steep gradient.

2<sup>nd</sup> site was rejected due to the reason that it did not provide connectivity to all the villages.

1<sup>st</sup> site was adopted as it covers all the villages and the gradient is reasonable and minimum forest land is involved and less no of trees are coming when computed to other sites.

Therefore keeping in view the above facts the road along 1<sup>st</sup> site is expected to be quite suitable without much involvement of forest land. Moreover this alignment is most feasible and beneficial by serving the goal and involving the minimum of forest land trees and bushes. The Hospital is mandatory in the to facilitate easy and early approach all kinds of patients particularly the old age/ senior citizens and children for their treatment.
