JUSTIFICATION FOR LOCATING TEMPORARY PLANT ON FOREST LAND

It is pertinent to mention that for the timely construction of above said road project, the commissioning of crusher plant, batching plat, magazine storage, labour huts, HSD pump nearest project is very important so that we supply the construction materials as soon as possible at project site. We approached to district higher authorities to identify & provide suitable land for commissioning of plants in an around the project area. Subsequently, they conveyed that no revenue land is available in this area & have identify forest land

1. It is pertinent to mentioned that huge quantity of stone chips, concrete, magazine storage, HSD and labour are required for timely completion of the prestigious project. So, the source of the materials is must require nearest the project site.

2. Enhancement in scope of work: - To meet the milestone set by National Highway Authority of India (NHAI) and to expedite completion program of the on-going project, crusher plat, concrete plant, magazine storage, hsd pump and labour has become utmost important.

3. All possibilities have been explored, but suitable land for commissioning the temporary crusher plat, batching plant, magazine storage, hsd pump and labour hut nearby project not available.

4. All project alignment falls in hilly terrain so the availability of state land and private land not possible in that area so we have not other option without forest land.

5. Keeping in view of the above, forest land has been identified for commissioning the temporary crusher plat, batching plants, magazine storage, hsd pump and labour hut which is within the project site approx. 0.442 Ha (Digdoll Nahlla- 0.3345 Ha, Khonni Nallah- 0.02 Ha, Panthyal- 0.0875 Ha) Tehsil & District Ramban.
