HEIGHTS & CONTOURS IN METRES
CONTOUR INTERVAL 10 METRES

Water features are shown in blue where they generally contain water.
Cultivated areas are coloured yellow.
The exterior boundaries of areas of Reserved or Protected Forests are shown by green ribands.

Contours are approximate.

A relative height, .8r, represents the approximate height, in metres, between the top and bottom of a steep slope.

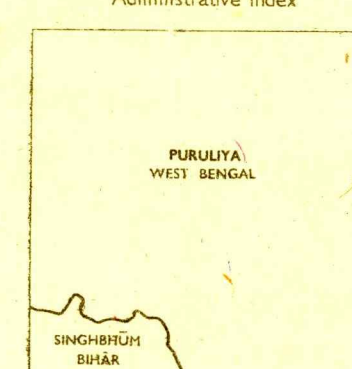

Wooded areas are coloured green. Scattered trees and other vegetation are in green, but

The state boundary between Bihar and West Bengal States has been surveyed as pointed out by the local officials on the ground, but has not been verified by the Governments concerned.

Forest boundaries have not been shown for want of reliable information.

Tanks in this area usually contain water from July to December.
