NOTES

Height & contours have been shown in this sheet.

A relative height e.g., *5ft. marked along a canal*, indicates the height of the top of the canal embankment above the adjacent covering.

Canal and drain distances shown are 1000 feet apart and every ensuing fifth stone is shown.

Stones, shown dry, in this area usually contain water from July to November.

Tube-wells are numerous throughout the sheet, only the important ones have been shown.

Fertilization to save unutilized root and semi-roots along canals is required from the irrigator authorities.

A relative height, *10*, represents the approximate height, in meters, between the top and bottom of a step.

The exterior boundaries of Areas of Reserved or Protected Forests are shown by green ribbons.

Positions of International Boundary Pillars has not been shown in this sheet.

COMPILATION INDEX

- A. Compiled from 1,25,000 survey, 1998-99.
B. Compiled from various sources.

Projection - UTM Datum - WGS 84

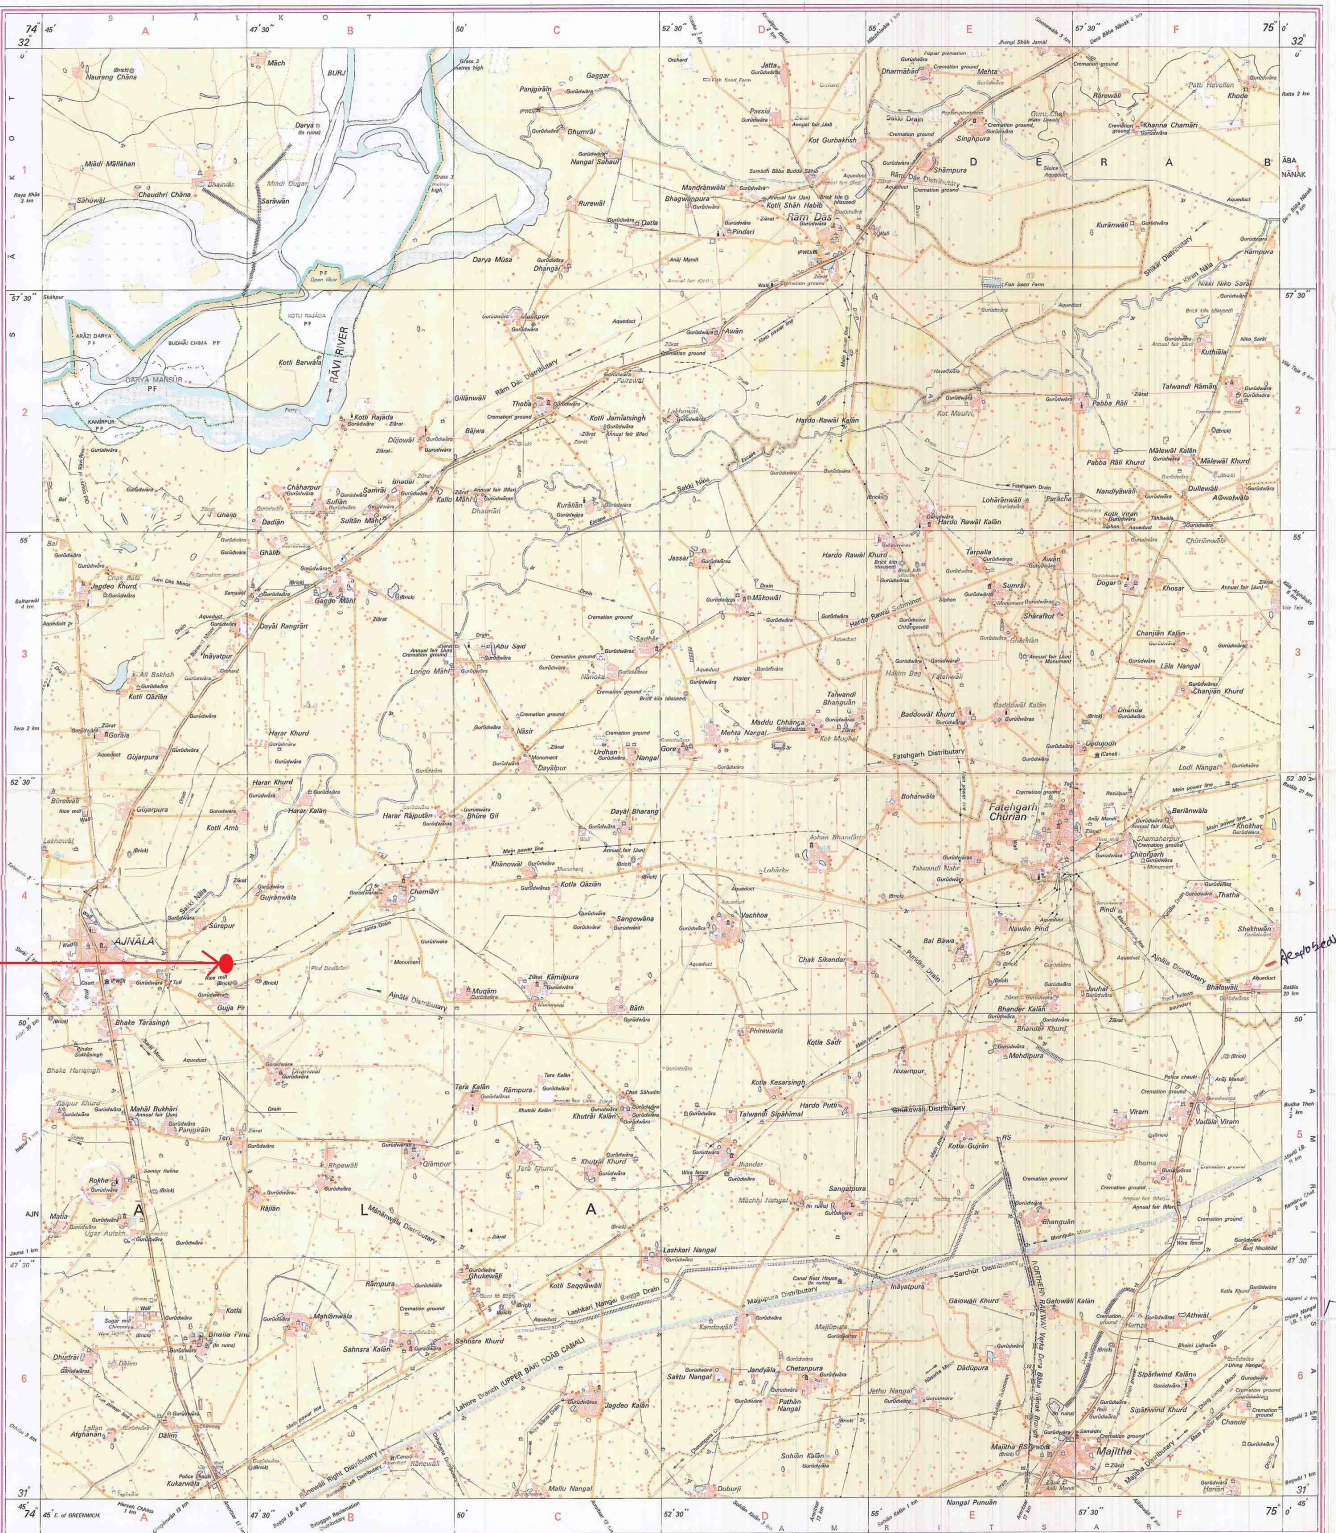

Magnetic Variation from True North about $1\frac{1}{2}^{\circ}$ East in 2005.
