## NOTES

Height and Contour lines have been shown  
A relative height, it represents the approximate height, in metres, between the top and bottom of a hill or depression.  
Contours shown dry in this area usually contain water from July to December.  
In some, where no known water courses are indicated and dependent on rainfall.

Projection - UTM Datum - WGS 84
Magnetic Variation from True North about 1° West in 2005, (Decreases by about 1° annually)
Scale 1:50,000
