

Full Justification for Locating the Project

The Government of Telangana State has decided for supply of water under water supply improvement projects in 24 ULBs and 14 Nagar panchayaths in Package-I &II under Mission Bhageeratha (Urban). The Government has accorded Administrative sanction for an amount of RS. 478.43 Crores for Package - I works in 11 ULBs vide G.O.Rt.No.191 dated 05.05.2020 by the Municipal Administration & Urban Development (Engg) department.

To solve the supply of drinking water problem in the Mancheria town, it is proposed for Construction of 500 KL GLBR on Jalagutta including approach road and pipeline for drinking water purpose under water supply improvement scheme under Mission Bhageeratha (Urban) in Mancheria District. The subject project is one of them.

As a part of the mancheria water supply improvement scheme, a 500 KL capacity GLBR is to be constructed on Jalagutta Hillocks so that all the 11 ELSRs in the town having 500KL to 1500KL capacity will be filled by gravity. Hence, it is an essential component to be executed as early as possible. Since without this GLBR the project cannot be commissioned.

As per the DGPS survey authentication report, the extent of area passing in the Reserve Forest area is 1.3363 Ha.

As there is no other alternative, except the present proposal. Hence, the proposal is being furnished for diversion of forest land.

The details of forest area required are as follows:

Division Name	Block Name	Component	Length in Mts	Width in Mts	Area in Ha
Mancherial	Ryali RF	Road	1185.85	10.00	1.1859
		Pipeline	649.01	2.00	0.1298
		GLBR	-	-	0.0206
Total					1.3363
