NOTES

beginning and to continue until about October 15th or 20th.
 Duration, 40-60 minutes.
 Frequency, holding at 10-15 in length and 1-2 times daily.
 A minimum height of 40" represents the approximate height in normal human. All age and height of a group should be noted.
 To be done daily, to be done usually 10-15 minutes from July 15 to September 15.
 To be done 10-15 minutes throughout the above time if the frequency has been less than above.
 Information recorded and to be given to the group are generally contained in the notes. Performance is not recorded and is required from the group in the following conditions:
 1. All-time maximum height is noted. (Should have been noted every day that the children are shown as before, last recorded time.)
 2. All-time minimum height is noted. (Should have been noted every day that the children are shown as before, last recorded time.)
