Anantapur Dist. Andhra Pradesh - 515 411.

Email : ramasreekant@yahoo.co.in, ramaminerals30@gmail.com

## Justification Certificate

Date : .....

The application is filed primarily for grant of Quarry Lease for Steatite and Dolomite, as the two minerals are associated Minerals. In India Steatite is a rare Mineral available in Two states, i.e, Rajasthan and Andhra Pradesh. Even In Andhra Pradesh Good quality of Steatite & Dolomite with Good Chemical Specifications is scarcely available and hence there is no alternative except to locate the project in the Forest area to the barest Minimum extent possible. Hence the Disturbances to the Forest area is very minimal with almost no loss of trees.

It is submitted that the available Steatite and Dolomite mineral deposits in the subject area is of high quality. The quality of High Grade Steatite mineral available from the proposed area is not available sufficiently outside the forest area. The high grade Steatite available here has its applications in Paper, Paints, Plastic, Detergents, Rubber, Pharmaceuticals, and Ceramics etc., and is a much demanded material in the present industry. The present mining will not only meeting market demand and also generate employment to the surrounding local villagers.

In Light of the above, it is very much essential for Grant of Mining lease for Steatite and Dolomite in interest of Mineral Development and industrial requirements

**For M/s: Rama Minerals.**
