JUSTIFICATIONS FOR HAVING EXTRA PATCH OF LAND

Ref.No.....

Date:.....

The AIIMS Bhubaneswar has been established by Act of Parliament under Union Ministry of Health to provide tertiary care health facilities at doorstep for the people of Odisha in 2012. Accordingly, the Govt. of Odisha has provided 92.1 Ac of Revenue land in Sijua Village under Khandagiri Tehsil of Khordha District.

The AIIMS Hospital and Medical College was inaugurated during the year 2014 and providing medical facility to the people of Odisha. Further to extend state of the art medical facilities four centers of excellence namely Oncology, Cardiology, Neurosciences and Renal have been planned and for the same extra land is required.

Accordingly, Govt. of Odisha has provided 26.1 Ac (10.58ha) of land adjacent to the existing medical campus of AIIMS. This patch of 10.58ha of land is a govt. land having status of revenue Gramya Jungle kisam. This patch of revenue forest land do not have any habitation at present and free from all encumbrances. Having a patch of land adjacent to the main campus shall prevent many services from duplication and save patients from unnecessary harassments and of course a great deal of budget shall be saved and the same can be utilized in more constructive manner. No other vacant land adjacent to the existing campus is available at present which can be utilized for this purpose.
