Regd. Office: 1/712, Dwarka Nagar Colony, Kadapa-516004 Tele/Fax: 08562-248181

## JUSTIFICATION FOR SETTING UP STONE CRUSHER IN FOREST LAND

1. Our company is working on the prestigious USBRL project(copy of allotment attached), the project is of extreme urgency and national importance, therefore timely supply of construction material (Fine and coarse aggregate in this case) is very important for timely completion.
2. We searched for various option to set up the crusher in near by location of our site so that aggregate could reach well in time for timely completion of project but after sweating enough over it we failed to identify any other site for setting up hot mix plant.
3. The target set by PMO to complete the project is Dec-2022 which is only possible when we have all material readily available near the site location.
4. Also local landlord are not ready to lease their land for the plant.
5. Hence we are left with no other option rather than requesting for use of forest land to set up our hot mix plant.
6. Our project will not only serve railways but will be of massive use to the local commuters.

Thank you

R K Infracorp Pvt. Ltd.

## **JUSTIFICATION FOR SETTING UP HOT MIX PLANT IN FOREST LAND**

1. Our company is working on the prestigious USBRL project(copy of allotment attached), the project is of extreme urgency and national importance, therefore timely supply of construction material (bitumen products in this case) is very important for timely completion.
2. The bitumen should reach the said site in maximum 30 minutes after being dispatched from the plant for assuring proper quality.
3. The target set by PMO to complete the project is Dec-2022 which is only possible when we have all material readily available near the site location.
4. We searched for various option to set up the plant in near by location of our site so that bitumen could reach well in time but after sweating enough over it we failed to identify any other site for setting up hot mix plant.
5. Also local landlord are not ready to lease their land for the plant.
6. Hence we are left with no other option rather than requesting for use of forest land to set up our hot mix plant.
7. Our project will not only serve railways but will be of massive use to the local commuters.
