

Full title of the Project: Petroleum and Natural Gas Regulatory Boards authorization for Nambor – Golaghat– Numaligarh area gas pipeline Project of Assam Gas Company Ltd.- Diversion of 1.147 Hectare of Forest land for plots at Uriamghat, Khoraghat & Nambor,

JUSTIFICATION FOR LOCATING THE PROJECT

In consideration of the requirements of Environmental parameters, construction methodologies to be adopted for different terrain encountered enroute design and engineering factors availability of logistic support. based on desktop study of relevant topographic maps of survey of India.

Methodology of selection of proposed plot for Gas pipeline:

After conducting a detailed desktop study of the alternate plots on the topographic sheet the feasible plot was identified

Factors considered:

While identifying the various alternatives for selection of the plot following factors were considered.

- Use of barest minimum forest land.
- Demand and supply center.
- Compliance with environmental regulations.
- Safety of people and property.
- Avoidance of mining protected and Reserved forest archaeological and sensitive areas.
- Avoidance of unstable ground features.
- Minimizing flood prone areas.
- Avoidance of rocky stretches.
- Flexibility for future expansion.

Based on the above detailed surveys have been carried out to finalize the exact plot for construction of interconnection station with minimum use of forest land.

Thanking you
