### **Justification for locating the project in forest land**

The project namely'' Installation of 1x660MW unit in place of retired unit of PH-I & PH-II at ATPS Chachai, District Anuppur (M.P.) is proposed to meet out the power requirement of M.P. state. The already installed unit of PH-I 1x30MW + 1x20MW & unit of PH-II 2x120 MW have been retired from services after completing the working life. The forest land is coming within the boundary wall of power house premises. There is no alternative to use other land in place of this forest land. Hence the acquisition of this forest land is very necessary.
