

**OFFICE OF THE SUPERINTENDING ENGINEER O&M JPDCL CIRCLE  
KISHTWAR**

**Justification Letter for permission to use forest land**

1. The project for laying of alternate 11KV trunk line for Dachhan Block from Sewerbhati to Dhanrashie Dachhan length 4 KM package is sanctioned under RR plan of Pakal Dul project. The existing 11KV line is passing through river near Sewerbhati as the area is involved for construction of dam by CVPP for which the shifting of 11KV line is required for feeding the power supply to Dachhan block to approx. 1700 consumers.
2. Forest area involved cannot be avoided as the only feasible alignment of 11 KV line is along the road side constructed by PMGSY Division Marwah for which the forest clearance has already been obtained by PMGSY Division Marwah.
3. Hence the use of forest land is the only option for laying of alternate 11 KV line.
