REFERENCE

NOTES :-

Contours are approximate.

The interpolated heights and contours in this sheet have not been adjusted to the heights of the spirit-levelled bench-marks and may not be strictly in accordance with them.

A relative height, Δh , represents the approximate height, in metres, between the top and bottom of a steep slope.

The exterior boundaries of areas of Reserved or Protected forests are shown by green ribbands. Tanks in this area usually contain water from July to December.

Water features are shown in blue where they are permanently or seasonally water.
