There is a temple here in between our land which is for religious symbol.

Some part of this land is used by Haryana Government for Paragliding Adventure Sports without any commercial benefits as agreement to be Signed with Government of Haryana.

We have already planted **Many Plants** there in our land for well Being in Environment Propose.

The permission regarding lifting of falling of trees has been taken from the Forest Department and the work related to the levelling etc. has also been completed after due permission of the Forest Department from time to time.

The land demarcation is already done by the Govt. Officials of Revenue and Forest Department.

Now we want to plant some fruity and ornamental trees in our own land for preservation of greenery including some vegetation and it is stated that the major civil construction work has already been completed and now we just need the permission for minor civil work.
