HEIGHTS & CONTOURS IN METRES
CONTOUR INTERVAL: 10 METRES

A contour line represents the line of equal elevation above sea level. The contour interval is the vertical distance between two adjacent contour lines. The contour lines are drawn at 10 metre intervals. The highest contour line shown is 100 metres. The lowest contour line shown is 20 metres. The contour lines are drawn in a way that they are perpendicular to the slope of the land. The contour lines are drawn in a way that they are perpendicular to the slope of the land.
