Office of the Executive Engineer.
Singatalur Lift Irrigation Division

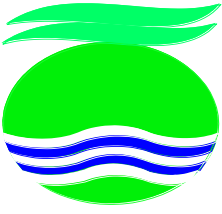

Letter of Justification

The Rainfall is decreasing year by year leading to the scarcity of water for domestic use of various villagers in the regions of Gadag District, Shirahatti Taluk. This has also led to the fall of underground water table and failure of sunken wells/bore wells. Even if we find water in such depth there is always presence of dissolved or suspended minerals in it which is neither potable nor palatable. The villagers, local representatives and leaders of these areas are requesting to propose a tank filling scheme to feed water in to 20 tanks comes under shirahatti taluk, Gadag District to recharge ground water and supply of drinking water supply.

The water lifted from Tungabhadra River Near Itagi village and the Intake valve, Jack well, pump house constructed at river ridge point as well as 110 kv sub- station also connected for this project purpose.

In this project forest and non- forest land are involved so that some locations forest area required to complete this project so that The below said location has been selected dully considering the High RL Level for suitable Gravity to reach the water to tanks and nearest located distributary to Supply the drinking water for villages & also tanks filling the Surrounding Villages (Technically Suitable) in the Bellatti Reserved Forest , Devihala Reserved Forest & Itagi Reserved Forest Area so that minimum forest cover is considered For construction the Raising main ,Gravity main and Distributary chamber / Storage Tank comes under this project activities.

After working out all alternative options this Alignment has been finalised before we alternative option but alternative option are technically unsuitable for some reasons like hills, gravity level differ from one start

2-Letter of Justification

Point to discharge points, too much for from villages, nala and some other

Reasons this alternative option omitted from this project so finally above Said forest area required for this project so we requested to sanctioned above requested forest area for pipe line & storage tank/ delivery chamber to fill the tanks & supply the drinking water for public peoples.

Hence we have request the proposed area for diversion of forest land in *in F.Sy No.26 of Alagilawada village of Alagilawada Reserved Forest, F.Sy No.54 of Nadigatti Village of Nadigatti Reserved Forest , F.Sy No. F.Sy No.69 & 71 of Bellatti village of Bellatti Reserved Forest (RF) 347, 348, 349, 19, 20 of Chabbi village, F.Sy No.10, 11 & 20 of Majjuru Village in Chabbi Reserved Forest For Construction of Water Storage Tank/ Distributor Tank & Raising Main Pipe Line & Gravity Main Pipe Line, F.Sy No.168 ,32, 50, 48 & 49 of Devihala village of Devihala Reserved Forest (RF) For Construction of Water Storage Tank/ Distributor Tank & Raising Main Pipe Line & Gravity Main Pipe Line, F.Sy.No.199,189,187,186,185 & F.Sy.No.190 , 214, 211,212 of Itagi village & F.Sy No.22 of Tangod Village of Itagi Reserved Forest (RF) , Raising Main F.Sy.No.7 of Hosur Village of Hosur RF For Construction of Water Storage Tank/ Distributor Tank & Raising Main Pipe Line & Gravity Main Pipe Line, Shirahatti Taluk, Gadaga District .*
Under Forest Conservation Act 1980.
