Bio diversity impact assessment report

The diversion of forest land for laying of 11 kv UG cable from Vilakkumaram to Rosemala habitat entry point is only 0.035 Ha. The cable is proposed to be laid along the existing road to Rosemala for a length of 1 Km and width of 0.35 mtr. No trees are to be felled or no damage to existing forest will occur due to this project. No rare /endangered/unique species of Flora and Fauna are found in the proposed area. As the forest area required is 0.035 Ha and it is the barest minimum requirement. No diversity impact assessment study is required as the diversified forest land is only 0.035 Ha
