RABONG**

JUSTIFICATION REPORT

Justification for construction of road from Upper Borong PWD road to Upper Polok Dara under Borong-Phamtam GPU, in South Sikkim. The sanctioned scheme requires forest clearance as it passes through Forest land in Khasmal.

This project falls in the South district of Sikkim. The road will connect Lower Ganchung village (which is approximately 20.5-km from Rabong) in the north direction. The proposed road is 3-kms in length. Presently there are no means of vehicular transportation facilities to Upper Polok Dara Kharka village so as to connect with the District HQ at Namchi & other important towns. The majority of the population are farmers and depend on agriculture. The road on completion, will act as a lifeline of the people of that area for transportation of their agricultural products to the town & help to transport their basic household amenities. It will also help them to reach the District offices, Health care Centres etc. and have easier access to all facilities, which are not available in the village.
