NOTES:

Heights and Contours have not been shown.
A relative height, e.g., 10 represents the approximate height, in miles, between the top and bottom of a steep slope.
Contoured areas are coloured yellow.
Tanks, shown dry, in this area usually contain water from July to December.
Tidal areas are indicated throughout the area, and are shown light blue when shown.
Unsettled tracks in this area are generally unsuitable in dry season.
The kilometre scale numbers along roads, and the reference down to start type e.g. 1/ whereas mile-long numbers are shown in capital type e.g. 10.
