

Justification for locating the project in Forest Land and Tar Road in
Proposed Land

I wish to inform that my private land bearing Survey No 38/2 in Kadapperi Village, Tambaram Taluk does not have any alternative non-forest approach road except the forest route in S.No.1 in Kadaperi Village, Tambaram Taluk.

Copy of Collector Certificate is enclosed stating no alternative non-forest approach road is available to my private land.

Since my land is in the border of the Reserve Forest and I regularly witness the area to worn out very badly during rainy seasons and for better feasibility access to my patta land, I humbly request to allow me to lay **Tar Road** on the proposed route and allow me to maintain the road periodically.
