

**FULL JUSTIFICATION FOR LOCATING THE PROJECT IN FOREST AREA**  
**(UN-AVOIDANCE OF THE FOREST AREA FOR THE PURPOSE)**

The existing road between Delhigate to N.H. 79 via Manpura, Gopalpura, Chittorgarh is a narrow BT road and has been declared as approach road National Highway 79 and the road is not upto the National Highway standards and cannot handle the increased highway traffic. The existing road from Delhigate to N.H. 79 via Manpura, Gopalpura, Chittorgarh is passing through Chittor killa hilli-1 Araj no.5 of Forest of Chittorgarh Division and the width of existing road is only 5.5 Meter. In order to execute this project up to National Highway standards, except widening of existing road, there is no any other alternative. Hence diversion of 1.74 Ha of forest land is proposed for an additional width of 9.0 Meter.

This road after completion would further improve connectivity in terms of achieving smooth and safe traffic flow and improve level of service. In addition to above, substantial economic gain in terms of reduced Vehicle Operating Cost (VOC) and reduced travel time will be achieved.
